

WELCOME TO FERAL GLOSS EXECUTION SYSTEM

Consistent, high-gloss cinematic visuals

You now own a complete production engine for consistent, high-gloss cinematic visuals.

No more fragmented prompts.

No more identity drift.

No more guessing what works.

This system locks face, proportions, gloss physics, and micro-facial charge automatically — *every single time*.

Quick Start

1. Open Grok Imagine
2. Paste the Master One-Command Generator Prompt (included in your download)
3. Add your button stack from the next page
4. Generate — the system handles everything else
